LONG BIO

S. A. Rodgers is a science fiction, fantasy, dystopian, and speculative fiction author who has spent more than a decade writing character-driven stories in which love, danger, and uncertainty often share the same page. She is drawn to morally complex characters, unreliable narrators, and worlds in which nothing is quite as it seems. She lives in Michigan with her husband. When she isn't writing, she can usually be found painting, playing chess, or researching yet another creative endeavor she swears she'll just try out.

She writes for readers looking for beauty in dark places, morally complex characters, and stakes that are high, but not always world-saving.
